

**Presenter:** Craig Sheridan

**Title:** FP7, H2020 and Flexiant – innovation in action.

**Abstract:**

FP7 and Horizon 2020 are European Commission funded programmes to facilitate the co-operation of the very best in industry and academia to push the state of the art in technology and put Europe on a level playing field with the rest of the technology world.

Involved since 2010, as a leading cloud orchestration thought leader, Flexiant helps ensure that aspects of the project can be realised in the marketplace by integrating new functionality to our core software.

As the first European provider of a public Cloud Platform, being involved in EC projects presents us as the thought leaders in our field and gains access to a very high calibre of academic and industrial partners.
